

C-PVC 120ABE

Product name : PVC

Product appearance : white pellets

Product description: New material modification,thermal stability, good heat resistance, high hardness and good strength.

Application fields: pipe fittings, flanges, Faner.

Material properties :

physical property	Rating unit system	test method
specific gravity	1.45 g/cm ³	ASTM D-792
hardness	85±5D	ASTM D-2240
mechanical character	Rating unit system	test method
tension strength	510kg/cm ²	ASTM D638
extensibility	30%	ASTM D638
Impact strength	8kg-cm/cn	ASTM D256
hot property	Rating unit system	test method
distortion temperature (1.80MPa)	100	ASTM D648
fire resistance	HB	UL94

Remarks: The above data are typical values in the laboratory, and the specific processing technology needs to be determined by the customers according to the different machines, equipment and products.

Packaging and storage: 25 kg/bag, paper-plastic composite bag, transported according to general chemicals. Store in a dry and cool place.

Disclaimer: The data recorded in this document are compiled according to existing data, information and data, and may be changed due to the discovery of new knowledge. In addition, the provision of this information is not a guarantee value. Therefore, your company should fully consider the product design and use environment before using it. Please use it at your own risk after confirming that there is no problem with the product.
